**Teaching
Anglophone Caribbean
Literature**

Edited by Supriya M. Nair

"This volume offers the necessary coverage, the range of critical approaches, and the practical instruction that will make it very useful to anyone teaching the subject."

—J. Michael Dash, *New York University*

The most challenging aspect of teaching anglophone Caribbean literature—the sheer variety of intellectual and artistic traditions in Western and non-Western cultures that relate to it—also offers the greatest opportunities to teachers.

This volume recommends print, digital, and visual resources for teaching course topics such as

- the development of multiethnic populations in the Caribbean
- the role of creole languages in the literature
- oral art forms
- anglophone Caribbean literature's influence on other literary movements
- religious rituals and beliefs
- specific genres such as slave narratives and autobiography
- the economics of rum

“An intriguing blend of history, memoir, and literary analysis—an insider’s perspective rubbing up against an outsider’s critical eye. *Here and There* is full of unexpected juxtapositions that offer original, creative views of the Pennsylvania anthracite region in decline.”

in the Twentieth Century***

Here and There **Reading Pennsylvania’s Working Landscapes**

Bill Conlogue

“Bill Conlogue, in *Here and There*, offers a nuanced, multilayered act of attention to the realities of land use and land thought in northeastern Pennsylvania. His intertwining of history, literature, and lived experience in a very particular place joins a new chorus of counterstatements to the twenty-first-century mantra of global sameness. A skillful scholar and writer and a native of the region, Conlogue has created a model work of ‘narrative scholarship’ and ‘practical reading.’”

—Scott Slovic, University of Idaho,
author of *Going Away to Think*

The global economy threatens the uniqueness of places, people, and experiences. In *Here and There*, Bill Conlogue tests the assumption that literature and local places matter less and less in a world that economists describe as “flat,” politicians believe has “globalized,” and social scientists imagine as a “global village.” Each chapter begins at home, journeys elsewhere, and returns to the author’s native and chosen region, northeastern Pennsylvania. Through the prisms of literature and history, the book explores tensions and conflicts within the region created by national and global demand for its resources: farmland, forest products, coal, and college-educated young people.
