Which John Dryden should be brought into the twenty-first-century college classroom? The literary theorist? The translator? The playwright? The poet?

This volume in the MLA series Approaches to Teaching World Literature addresses the tensions, contradictions, and versatility of a writer who, in the words of Samuel Johnson, “found [English poetry] brick, and left it marble,” who was, in the words of Walter Scott, “one of the greatest of our masters.”

“Dryden is a major figure of the Restoration, writing in almost all of its important genres. This volume is a valuable addition to the series.”
—James Evans, University of North Carolina, Greensboro

Approaches to Teaching the Works of Italo Calvino

Edited by Franco Ricci

“...render the volume valuable for nonspecialists, for Italianists, and for Calvino specialists, too.”
—Tommasina Gabriele
Wheaton College, Massachusetts

Italo Calvino, whose works reflect the major literary and cultural trends of the second half of the twentieth century, is known for his imagination, humor, and technical virtuosity.

He explores topics such as neorealism, folklore, fantasy, and social and political allegory and experiments with narrative style and structure.

Given the range of his writing, teaching Calvino can seem a daunting task. This volume aims to help instructors develop creative and engaging classroom strategies.
