

Demography presents the highest quality original research of scholars in a broad range of disciplines that includes anthropology, biology, economics, geography, history, psychology, public health, sociology, and statistics. The journal encompasses a wide variety of methodological approaches to population research. Its geographic focus is global, with articles addressing demographic matters from around the planet. Its temporal scope is broad, as represented by research that explores demographic phenomena from past to present and reaching toward the future.

For submissions guidelines, visit populationassociation.org/demography/for-authors.

Demography is an open-access journal. Guaranteed perpetual access to this title is available only through the e-Duke Journals Scholarly Collections. For information on subscriptions to the e-Duke Journals Scholarly Collections, please contact libraryrelations@dukeupress.edu.

Photocopies for course or research use that are supplied to the end user at no cost may be made without explicit permission or fee.
