The Heritage of the Conquistadors

Ruling Classes in Central America from Conquest to the Sandinistas

By Samuel Z. Stone

Foreword by Richard E. Greenleaf

Rich in implications for U.S. foreign policy, The Heritage of the Conquistadors provides the historical and socioeconomic context necessary for an understanding of the problems facing Central America. Samuel Z. Stone demonstrates that the regimes of Costa Rica, Nicaragua, Guatemala, Honduras, and El Salvador are rooted in a common ancestry that often confuses the outside world’s understanding of events such as the Salvadoran insurgency, the fall of Somoza, and the rise of the Sandinistas. Stone also considers how the divisions of ruling classes, effacing kinship and common social background, have led to the bloody power struggles of recent years.

*1500-1700 • Selected Essays*
J.H. Elliott
“Our most distinguished historian of the imperial age of Spain... illustrate[s] several of the great and continuing problems of that history: the impact of the New World, the challenge of the European empire, the structure of the monarchy.... These are wonderful essays, erudite and yet lucid, wide-ranging but full of fascinating detail.”—Hugh Trevor-Roper, *The Sunday Telegraph* $12.95
Images of History provides the first overview of the history of photography in Latin America before the advent of inexpensive mass photography and analyzes the photographic record for clues to the use of the images as historical documents.

"Photographs have proved tricky sources for historians. . . . Those of us who train young historians have felt the need for a text that illustrated the ways photographs can yield such insights. Images of History supplies this need better than any other book I know."—William R. Taylor, New York Institute for the Humanities

“The book proves not only to be a history of photography, but also a social history of Latin America. . . . The photographs’ reproductions are excellent. A worthy addition to your library.”—John Kerr, Camera Canada
