

Submissions *History of Political Economy* uses a single-blind refereeing process. Please include your name and affiliation (if you have one) on the first page of your paper. Papers should be typed for submission as a Word document. Do not use software designed for mathematical word processing (e.g., LaTeX); if you do, and your paper is accepted for publication, you will be asked to submit the final version of the paper in Word. Papers should be double-spaced, use a conventional 12-point type such as Times New Roman, and have one-inch margins all around. Please submit your paper as a Word document (not a PDF) by e-mail to hope@econ.duke.edu. Include a message that announces the title of the paper, identifies it as a submission, and briefly describes its content. Only original, unpublished papers will be considered. Please do not simultaneously offer your paper to another publication. Images should be scanned at at least 300 dpi and at 4.25 inches wide and be submitted as a TIFF or EPS graphics file. Authors are expected to sign a publication agreement as a precondition of publication. Please retain a copy of the publication agreement for your records, as it explains what your rights are as the author of the paper, including republication rights. When preparing your manuscript for final submission, refer to the seventeenth edition of *The Chicago Manual of Style* for matters of style. For more details regarding the journal's submission guidelines, visit the journal's page on the Duke University Press website (www.dukeupress.edu) and click on the "Submissions" tab.
