Health Policy in Transition
A Decade of Health Politics, Policy, and Law

Lawrence D. Brown, editor

"Health Policy in Transition represents the work of a number of heavy hitters in the field. All of them are learned and highly respected in the academic community and the policy arena. The papers are thoughtful and well written. Brown's introduction, for example, is just the sort of overview one would love to have at hand in a course on health policy.

"I think those of us who like to take a broader view of health policy - in our own work or with our students - would profit from this collection of essays. To my knowledge, there is not yet available another attempt to chronicle these confusing times with anything like the analytic frameworks exhibited in these papers. Rarely does anyone find material with such a scholarly bent." -- Uwe E. Reinhardt, Princeton

contributors:

200 pages, notes, index. Originally published without preface or index as Vol. 11, #4 of Journal of Health Politics, Policy and Law. Cloth, $29.95, paperback $9.95
