New from
DUKE UNIVERSITY PRESS

Ordinary Medicine
Extraordinary Treatments, Longer Lives, and Where to Draw the Line
SHARON R. KAUFMAN
Critical Global Health
paper, $26.95

“Ordinary Medicine should be read, thought about, and acted upon by those who have the power to effect change.” — Victoria Sweet

Postgenomics
Perspectives on Biology after the Genome
SARAH S. RICHARDSON and HALLAM STEVENS, editors
16 illustrations, paper, $25.95

“A brilliant collection of lucid and accessible essays, and a go-to volume for anyone who wants to catch up on what has been happening in contemporary biology and science studies.” — Michael M. J. Fischer

Para-States and Medical Science
Making African Global Health
P. WENZEL GEISSLER, editor
Critical Global Health
14 illustrations, paper, $27.95

“A welcome corrective to any bland caricature of ‘neoliberalism’ that fails to take account of the state in satisfactory ways. This collection marks a turning point.” — Julie Livingston
