LABOR UNDER FIRE
A History of the AFL-CIO since 1979
Timothy J. Minchin

“Minchin is one of the most prolific and insightful historians researching U.S. labor in the era since World War II. His books have helped illuminate the darker corners of labor’s story neglected by his contemporaries in the field. In this book, Minchin does it again, bringing shrewd judgment to bear as he frames organized labor’s recent history as a tale of struggle, resiliency, and hope.”
—Joseph A. McCartin, Georgetown University

NO RIGHT TO BE IDLE
The Invention of Disability, 1840s–1930s
Sarah F. Rose

“Apathbreaking work that rests on prodigious research and penetrating insights . . . the first fully historical and vastly important study we have on the social welfare origins of disability as a category for law, policy, and the organization of work.”
—Eileen Boris, University of California, Santa Barbara
400 pages  $39.95

NO MORE WORK
Why Full Employment Is a Bad Idea
James Livingston

“Livingston’s manifesto answers the question as to why Americans have such a ‘fetish’ with the idea of full employment and what happens when work in the United States disappears. Given the current debates about America’s economic status, modern American life, and dependence on Third World labor, Livingston’s new political theory poses a new self-understanding for Americans in an era of long-term unemployment.”
—Bruce Robbins, Columbia University

SILK STOCKINGS AND SOCIALISM
Philadelphia’s Radical Hosiery Workers from the Jazz Age to the New Deal
Sharon McConnell-Sidorick

“It is remarkable that the hosiery workers’ central role in the labor movement of the 1920s and 1930s has been as overlooked as it has been in the historical literature. McConnell-Sidorick is the first to fully tell this story, and she tells it masterfully. For anyone trying to understand the trajectory of the U.S. labor movement in the twentieth century, this book is a vital resource.”
—Janet Irons, author of Testing the New Deal

Labour History Review

Since 1960 Labour History Review has explored the working lives and politics of ‘ordinary’ people. It has played a key role in redefining social and political history.

The journal’s emphasis is on British labour history, though comparative and international studies are not neglected. The editors welcome contributions which dig deeper within the traditional subject matter of labour history, but they are also keen to expand the parameters of the subject and the range of approaches taken to it. They are particularly interested in articles which engage with issues of gender and ethnicity or race, as well as class.

The journal will be published alongside the book series Studies in Labour History, edited by Dr Alan Campbell. The series provides reassessments of broad themes along with more detailed studies arising from the latest research in the field of labour and working class history, both in Britain and throughout the world.
