Feminist Economics
Journal of the International Association for Feminist Economics

EDITOR
Diana Strassmann, Rice University, USA

"Voted 'Best New Journal' by the Council of Editors of Learned Journals, 1997. Feminist Economics has established itself firmly as a journal of high scholarly standards on the role of gender in the economy. It also serves as a center for informed policy discussion. It meets a need not well served by other journals and should play an increasing part in providing a forum for important research."

Kenneth Arrow, Stanford University, USA.
