GENRE

FORMS OF DISCOURSE AND CULTURE

James Zeigler, editor

Genre is devoted to the study of the codes, conventions, and histories of generic forms in the context of their cultural manifestations and effects. It publishes articles that deal with questions of genre in both literary and nonliterary forms, that apply a broad range of disciplinary and interdisciplinary approaches to genre, or that consider theoretical, institutional, or political dimensions of discourse.

NEW GERMAN CRITIQUE

An Interdisciplinary Journal of German Studies

*Edited by the NGC Editorial
Collective*

“New German Critique has been a prime mover in shaping the discipline of German studies. For forty-five years, it has sought to define the meanings of ‘cultural studies’ and to draw on the rich tradition of German theory as intrinsic to the shaping of those meanings.”

—James Rolleston, Duke University
