Volume 28, no. 2:

“Climate Change and the Future of Cities: Mitigation, Adaptation, and Social Change on an Urban Planet,” a special issue guest edited by Eric Klinenberg, examines our current age of extremes, a period punctuated by significant disasters that have changed the way we understand risk, vulnerability, and the future of communities. Violent ecological events such as Superstorm Sandy attest to the urgent need for analysis on what cities around the world are doing to reduce carbon emissions, develop new energy systems, and build structures to enhance preparedness for catastrophe. The essays in this volume illustrate that the best techniques for safeguarding cities and critical infrastructure systems from the threats related to climate change have multiple benefits, strengthening networks that promote health and prosperity during ordinary times as well as mitigating damage during disasters. Authors provide a truly global perspective on topics such as the toxic effects of fracking, water rights in the Los Angeles region, wind energy in southern Mexico, and water scarcity from Brazil to the Arabian Peninsula.
Call for Contributions

*Public Culture* aims to publish original research of the highest caliber, and we welcome your submissions. We value strong writing, clear argumentation, imaginative theory, and an engaging prose style. *Public Culture* reaches an audience that transcends scholarly disciplines and extends beyond the academy. We seek work that persuades through evidence, logic, and analysis and that presumes no shared theoretical proclivities, political values, or specialized vocabularies.

Brief opinion-oriented pieces (of 500–3,000 words) run at the front of each issue in the Forum section. Full-length articles (of 6,000–9,000 words) based on original research are at the core. We also feature in-depth discussions with leading contemporary thinkers. Typically, we are familiar only with scholarly labor’s final results, published books and articles, or occasional lectures. The interviews we publish call attention to the backstage of intellectual practice. In addition to original research essays, opinion pieces, and conversations, *Public Culture* welcomes translations of previously published, groundbreaking essays.

Our sister publication, *Public Books* (www.publicbooks.org), welcomes proposals for review essays about books (fiction or nonfiction), films, exhibitions, or plays, as well as profiles of intellectuals or literary scenes, visual essays, and multimedia work. Authors interested in submitting to *Public Books* should send proposals of 500 words or fewer to editorial@publicbooks.org.
