“Like an antidote to amnesia, Scott’s meticulous, granular research vividly recreates the political weather of the 1970s. Here is a sidelined architecture history that returns as a missing link — eccentric stories in the emerging development of those networks, technologies, media, and advocacies of global governance that are of most consequence today.”
— KELLER EASTERLING, YALE UNIVERSITY

“Essential reading for anyone with activist stakes in the contemporary history of insurgent habitats and militarized space.”
— EMILY APTER, NEW YORK UNIVERSITY
