Stuart Hall
On Representation

Two illustrated video presentations enhanced by extensive use of sections headings, visual examples and animated graphics

Representation and the Media is an introductory lecture that unpacks one of the central ideas of cultural studies — that reality is not experienced directly, but always through the lens of culture. Using concrete examples Hall shows how the media have become key players in the process of modern representation.

Classroom edition, approximately 60 minutes

“Stuart Hall is our most acute student of race and communication (and many other matters as well), and a passionate and engaging lecturer. Here he is at the top of his game.”

Professor James W Carey
Graduate School of Journalism
Columbia University

Race, the Floating Signifier looks beyond the effects of racism to explore the deeper questions about how race is represented. Hall shows that racial signifiers are never fixed, but depend upon cultural context, and are discursive constructs, or “floating signifiers.”

Classroom edition (approx 60 minutes), unedited Reference edition (approx 100 minutes).

“Everyone, everywhere in the world, needs to hear Stuart Hall’s words. His understanding of race, class and gender is broad, complex, and illuminating.”

HOPES & FEARS

Bonds of Affection
Americans Define Their Patriotism
Edited by John Bodnar

In Bonds of Affection, a group of scholars explores the manner in which Americans have discussed and practiced their patriotism over the past 200 years.

In addition to the editor, the contributors include Cynthia M. Koch, Cecilia Elizabeth O'Leary, Andrew Neather, Stuart McConnell, Gaines M. Foster, Kimberly Jensen, David Glassberg and J. Michael Moore, Lawrence R. Samuel, Robert B. Westbrook, Wendy Kozol, George Lipsitz, Barbara Truesdell, Robin Wagner-Pacifici, and William B. Cohen.

“This is the most sweeping and penetrating set of analysis of American patriotism and nationalism since the publication of Merle Curti's Roots of American Loyalty in 1946. Gathering data everywhere from early school textbooks to photographs in Life magazine, the contributors bring new theories and skills of analysis to bear on this field. They make points that will stimulate further research and debate among a growing number of readers interested in the history of patriotism.”
—David D. Van Tassel, Case Western University

The Politics of National Identity
Edited by John R. Gillis

“This fascinating book, . . . points out how peoples and nations can use national identity to erase the past, to recreate it, to cause it to flourish, to meld it in with the present and the future.”
—Peter Rollins, Journal of American Culture

“Brilliantly conceived and meticulously edited; the contributions are uniformly excellent. . . . No better introduction to the burgeoning field of historical memory is likely to be found.”
—Merrill D. Peterson, The Journal of American History

A Response from the Cultural Left

If our so-called culture war seems all on the side of the Right, there's a reason. It's all in their heads. From the beleaguered—some would say baffled—silence on the Left, this book at long last emerges with a devastating diagnosis of the "debate" over political correctness.

José María Paz Gago. Semiótica del Quijote. Teoría y práctica de la ficción narrativa. Se trata de un innovador estudio sobre la primera novela moderna, es decir, sobre el primer texto narrativo de ficción realista en prosa, polifónico y de una cierta extensión. Fundamentar tal definición del Quijote es el propósito central de este libro en el que su autor, profesor de Teoría de la Literatura en la Universidad de La Coruña (España), recurre a un poderoso instrumento metodológico, la Semiótica Narrativa postestructuralista.

Las aportaciones de una Narratología en la que han sido integradas otras teorías críticas como la Poética de la ficción o la Poética sociológica se muestran particularmente eficaces en el análisis e interpretación del texto cervantino, un relato de extraordinaria complejidad, riqueza y modernidad.

A partir de un enfoque formalista, esta novedosa perspectiva dentro de los estudios cervantinos permite al autor abordar los mecanismos de enunciación y recepción, así como otros aspectos del Quijote menos tratados por el cervantismo tradicional, tales como su estructuración narrativa y dialógica, el tiempo y el espacio o su funcionamiento ficcional. Son éstos algunos de los temas abordados en este libro que será pronto imprescindible en el seno del Cervantismo y de la teoría de la ficción narrativa.
