LABOR

Studies in Working-Class History of the Americas

Leon Fink, editor

The official journal of the Labor and Working-Class History Association (LAWCHA).

As a site for both historical research and commentary, *Labor* provides a scaffolding for understanding the roots of our current economic dilemmas. Although the tradition from which the journal derives its energy has focused primarily on social movements and institutions based on industrial labor, *Labor* gives equal attention to other labor systems and social contexts (agricultural work, slavery, unpaid and domestic labor, informal sector, the professions, etc.). Its focus extends across the “American” hemisphere and to other transnational comparisons that shed light on the American experience.
