We Can End the Suffering of the People of Palestine and the People of Israel

To do so will require changing Western societies in a profound way. *Embracing Israel/Palestine* shows how—it’s a book not just about the Middle East but about how to rethink our entire approach to social and political change.

Embracing Israel/Palestine is a terrific book by a pioneer of global transformation. Out of love for both Israelis and Palestinians as equal creations of God, Rabbi Lerner offers us the deepest way out of the bloody conflict—an approach that draws from a deep psychological and political understanding of the dynamics of the Middle East.

—Avrum Burg, former chair of the Jewish Agency and World Zionist Organization, speaker of the Knesset, and interim president of the State of Israel

Rabbi Michael Lerner is one of America’s most significant progressive intellectuals and political leaders, and *Embracing Israel/Palestine* is not only a great conceptual breakthrough in dealing with the Middle East but also demonstrates a methodology for how best to think about global and domestic U.S. politics. For many decades Muslims around the world have been cheered by Rabbi Lerner’s challenge to the media’s demeaning of our religion and dismissal of the rights of Palestinians, just as they have been challenged by his insistence that they recognize the importance of truly and deeply accepting Israel’s right to exist in peace and security.

—Rep. Keith Ellison (D-Minn.), the first elected Muslim to the U.S. Congress and chair of the Progressive Caucus of the U.S. House of Representatives

As a Palestinian activist in the West Bank, I am truly grateful for *Embracing Israel/Palestine*’s powerful contribution to peace, justice, kindness, and sanity!

—Sami Awad, executive director of Holy Land Trust in Bethlehem, Palestine

Rabbi Michael Lerner provides us with a brilliant and hopeful vision of how to transform the Middle East from a cauldron of violence to a vanguard of peace. I hope every American will read this book and apply its lessons to change how we deal with the Middle East.

—President Jimmy Carter

Rabbi Michael Lerner is one of the great prophetic figures of our time. This book should be the indispensable work on the delicate and difficult effort to keep track of the precious humanity of Jews and Palestinians in the epic struggles for security and justice.

—Cornel West, author of *Race Matters* and professor of African American studies and religion at Princeton University

This book would change the world if there were enough people who would open their eyes and read it. Lerner uses Israel/Palestine as a prism to look at the world as a whole. I hope this book will be used widely in courses in political science and sociology in our universities, not only in courses about the Middle East.

—Robert Bellah, professor emeritus at UC Berkeley, author of *Religion in Human Evolution*, and coauthor of *Habits of the Heart*

Order it online at tikkun.org/embracing or send a $20 check made out to Tikkun to 2342 Shattuck Ave. #1200, Berkeley, CA 94704.
